WHAT DOES CA-VA PROGRAM INCLUDE ?

PYQ Workbook Assignments

We focus on past year UPSC CSE questions in our classes to brainstorm **and familiarize** you with exam patterns and develop targeted content.

Quick Revision Cards (QRC)

Our quick revision cards are provided to help you with easy memorization, ideal for daily practice and **spaced repetition**.

In-Depth Current Affairs Coverage

The 10 month program ensures that you have comprehensively covered **issues of global and national importance**, essential for CSE examination

Integrated Prelims-Mains-Interview Classes

The Program will cover current affairs across all stages of exam preparation— **prelims, mains, and interview**— ensuring you're equipped with current oriented value addition at every step.

Randomness Readiness (RR)

We provide weekly assessments on relevant yet random issues through subjective and objective questions to broaden your knowledge base.

Graded Assessment Tests (GAT)

Monthly graded assessment tests to help track your progress, identify strengths, and reorient your preparation effectively.

Theme-Oriented Syllabus Coverage

Our curriculum is structured around key **themes covered under syllabus keywords**, helping you connect concepts and apply them effectively in examinations

Unique Trademark Handouts

Our concise handouts are packed with **essential information, diagrams and schematics** perfect for quick revisions and easy content retention

Syllabus Code Framework

Our unique curriculum code framework ensures that all current affairs content is well-organized, making your study process more efficient.

Strategic Three-Phase Schedule

The program starts with mains-oriented preparation, emphasizing theme-based content. It then shifts to relevant current affairs for prelims, and finally focuses on enhancing and consolidating key themes for the mains in the third phase

THE MOST COMPREHENSIVE CURRENT AFFAIRS PROGRAM

More than 50% of the questions in GS Mains Papers 1/2/3 are directly linked to current issues in the news. The content is also crucial for essays, ethics papers, and certain optional subjects. Subjective exams like the UPSC mains demand high-quality, differentiated content for higher scores. We ensure that students get value addition beyond the normal sources, so that they can get better marks than their competitors. However, students often struggle with information overload, unable to discern what is relevant. These classes emphasize decluttered information and provide UPSC-specific content. Given the vast scope of current affairs, many students face challenges in organizing their preparation and notes, making a disciplined approach essential. The program adds value for first timers, repeaters and rank improvers.

➤ How will CA-VA add value to your preparation ?

Differentiated | Content to stand out among the peer group

Decluttered | The help you streamline your preparation

Disciplined | Strategically curated programme
